

About career path **Unqualified**

You can work as a facility employee, but you don't have much income. There is no qualification allowance. It is also difficult to be hired as a full-time employee. It may be a temporary staff of the facility. There are few benefits.

Level 1 Training for first-time employees

You can write a voucher for the occupation of visiting care. The road for full-time employees as a nursing care worker is opened. If you are a full-time employee, you will have bonuses, social insurance and benefits. There is a qualification allowance. You can work in nursing care jobs such as nursing homes.

Level 2 Training for Practitioners

If your company asks you to do so, you can be the person in charge of providing the service. There is a qualification allowance. If you have more than three years and 540 days of experience as a nursing care worker, you can take the national qualification. You can also qualify to get the first sputum aspiration.

Level 3 Nursing Care Worker Caregiver (National Qualification)

You will receive a qualification allowance. You can be the service delivery person. Finding a job will be easier. Nursing care workers are welcome wherever they are in the facility where Takagi Academy is being consulted. Takagi Academy is available for consultation. Please feel free to contact us.

Please feel free to contact Takagi Academy for human resource development.
